About The Authors

Donald George Morrison holds a joint appointment in the Harvard University Office of Information Technology and the Boston University African Studies Center. He has held faculty appointments at M.I.T., Northwestern University and York University, Canada, where he was Director of the Methods & Analysis Section, Institute of Behavioural Research. He was also Director of the Center for Social Science Computation Research at the University of Washington and was Director of the Computing Center at the University of Ibadan, Nigeria. He received his Ph.D. in Political Science from M.I.T.

Robert Cameron Mitchell is Senior Staff Sociologist at Resources for the Future. He has held faculty positions at Northwestern University and Swarthmore College. He received his Ph.D. in Sociology from Northwestern University.

John Naber Paden is Clarence J. Robinson Professor of International Studies at George Mason University. He was previously Director of the Program of African Studies and Professor of Political Science at Northwestern University. He received his Ph.D. in Political Science from Harvard University.

THE BLACK AFRICA DATA BASE

by Donald George Morrison with Robert Cameron Mitchell and John Naber Paden

The complete data base, containing more than five times the data selected to be printed in Black Africa: A Comparative Handbook is now available. The data base contains over 3,000 variables coded for each of 41 black African states, as well as data on the background of elites, the cultural characteristics of ethnic groups, and information on urban centers.

The BLACK AFRICA data base is now available on disks for use in desktop computers. This data includes three major components. The first is the data that appears in this book in the form that it appears. Indeed, the tables in the book were generated by this data. The second set of data includes data associated with the data in this book. That data is of several types. The first type is typically data that is of the same form as that included but for different years or forms of aggregation.

The second type will be of considerable interest to those studying political systems in a disaggregated form. It includes data collected at levels of aggregation different than as published. For example, detailed annual data on many kinds of instability events is included. These data along with other data on urban areas and ethnic groups will be of interest to those studying subnational forces in these countries.

The third kind of data is later data for any of the measures included in the first two sets. This data and its distribution on disk for analysis will allow us to keep users current as time increases the data available to us. The data will be distributed in a standard form (ASCII) which can be read by most word processors and most data or statistical analysis programs on desktop or microcomputers. Therefore, such packages as SPSS-PC, BMOP-PC, SAS-PC, SYSTAT, etc. and WORD PERFECT, WORD, WORDSTAR, etc., can be used to access the data files. Also, the FORTRAN program that creates the tables in the book is included. The users may also want to add countries to the coverage which would be straightforward.

The data base is updated perpetually so that whenever the disk is ordered, it will always contain the latest available data. For most purposes, an update every six months will be sufficient. Approximately half the data will change in that time period. When ordering, be sure to specify IBM 3 1/2 or 5 1/4 inch disks, or Macintosh disks.

BLACK AFRICA Data Base — $80.00
Subscription — 4 disks, one with your initial order and then 3 disks, one every 6 months thereafter—$240.00 (save $80.00)

Introduction 3

Guide to Reading Tables in Part I

A Demography, Ecology, and Pluralism

1 Ecology, Demography, and Urban Patterns 7
Area; agricultural land; non-agricultural development potential; population; population increase; European population; Size, growth and primacy of cities
2 Cultural Pluralism 25
a Language Pluralism: *Number of language; primacy and speakers of first language; language classification and standardization; language policy* 25
b Religious Pluralism: *Distribution of Traditionalists, Muslims, Protestants and Roman Catholics* 30
c Ethnic Pluralism: *Heterogeneity of major ethnic groups on aspects of traditional social structure* 34

B Economic Development and Social Mobilization

3 Economic Development and Social Mobilization 57
Agricultural labor force; wage earners; energy consumption; potential industrial types; capital formation; public investment; U.S. investment; long-term growth potential; level and growth GDP; consumer price index; agricultural production; physicians
4 Social Mobilization 87
a Educational Systems: *Level and change of primay and secondary education; secondary to primary ratio; post-secondary education; literacy; educational expenditures* 87
b Mass Communications and Transportations Systems: *Radios; newspaper circulation; telephones; cinemas; roads; commercial and passenger vehicles; railroad track* 104

C Political Development

5 Political Development 121
a Political Instability: *Cabinet changes; elite and communal instability; turmoil; violence* 122
b Political Participation: *Party duration, number and change; noting turnout; pre-independence support for ruling party; legislature fractionalization* 132
c Governmental Institutions: *Legislature size; cabinet representativeness; government employment; local administration; legal system; political formula; size, growth and relation to GNP of government budgets and expenditures; taxes* 143
d Military and Security Systems: *Armed forces; internal security forces; defense budget; Africanization of officer corps; military aid* 160

D International Relations

6 International Relations 173
a Trade: *Size of trade; export diversification; trade with other African nations, Colonial Powers, and ex-Colonial Powers, Eastern-*

bloc, and United States; balance of trade 175
b International Aid and Investment: *United States ex-Colonial Power, and Eastern-bloc Aid* 186
c Foreign Policy: *Exchange of diplomats; membership in international organizations; international conflict* 197

Cross-National Research on Africa: Issues and Context

1 Comparative Analysis of African States: On the Uses and Limitations of Cross-National Data. 211
Nations as units of analysis in comparative research; units as systems; the equivalence of nations; the development of African nations; Africa and cross-national comparisons; five approaches to cross-national analysis; multimethod approach; methodological issues in cross-national generalizations; validity and reliability; the nature of reliability; relationship of reliability and validity; source reliability; reliability assessment; summary; the nature of validity; ecological fallacies; the limits of cross-national generalization; the difficulty of making causal inferences

2 Conflict and Political Violence in Black African States 233
Introduction; a model of political instability in sub-Saharan Africa; empirical analysis; conclusion

3 Measures Models and Meaning in Aggregate Data for African States 265
Measurement models: sources of error; estimates of error in single items; multiple items scaling and measurement error; measurement of error and the evaluation of theoretical models of African development; conclusions

4 Ethnic Unit Classification and Analysis 295
Ethnicity and national integration; the comparability of ethnic units; three appraches to aggregating ethnic identity groups; group, type, cluster-three levels of inclusion; example of Benin; selection of ethnic units in African states; location of information; Cameroon example

5 Information on African States: Principles, Procedures, and Future Developments for the African National Integration Project Data Bank 315
Information and the Data Archive: Concepts and Rationale; Contents, Organisation and Use of the ANIP Archive; weakness in the Current Organization of the ANIP Data Bank; New Directions for the ANIP Data Manager System (ADMS); substantive improvements; summary
